STRONGER
THAN
STAINS

Johnstone's Trade StainAway Product Guide

Johnstone's Trade StainAway. Stronger than stains.

Johnstone's Trade StainAway wall and ceiling paint contains Stain Blocking technology to permanently isolate stains and leave a durable flat matt finish.

The innovative Stain Blocking technology permanently isolates even the most persistent stains, including smoke, nicotine and water. StainAway also has high opacity, class 1 scrub resistance and leaves a smooth flat matt finish.

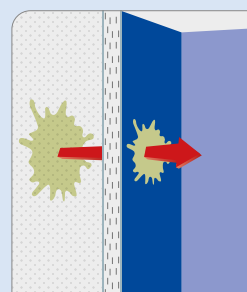

When working with stained walls and ceilings, there is no need to use a separate primer and finish. Johnstone's Trade StainAway will do both jobs in one, saving you time on the job.

PRODUCT INFORMATION

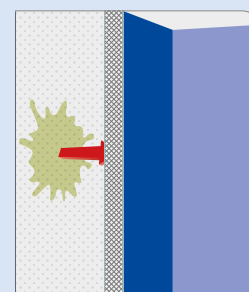

- STAIN BLOCKING TECHNOLOGY
- PRIMER AND FINISH IN ONE
- SMOOTH FLAT MATT FINISH
- CLASS 1 SCRUB RATING ISO 11998

Stain Blocking technology

Without Stain Blocking technology

With Stain Blocking technology

Johnstone's Trade StainAway has Stain Blocking technology containing cross linking polymer compounds in the paint layer ensuring stains are covered permanently.
