

Curriculum Vitae

Name **Tobias B. Dansen, Ph.D.**
Address University Medical Center Utrecht
Center for Molecular Medicine
Molecular Cancer Research
3584 CG Utrecht
Huispostnr. STR 3.217
Tel +31-88-7555162 Fax +31-88-7569035
e-mail: t.b.dansen@umcutrecht.nl
website: <http://groups.mcr.umcutrecht.nl/dansen/>

Date of birth 6th of November, 1973

Summary

Redox signaling is an exciting upcoming field in cellular signal transduction. This form of signal transduction is being mediated through the (reversible) oxidation of cysteine residues within proteins by reactive oxygen species and thus translates the cellular redox state into an appropriate cellular (transcriptional) response. The maintenance of a balanced cellular redox state is often disturbed in tumor cells due to for instance metabolic alterations like the Warburg effect. It is my aim to study how altered redox signaling contributes to cellular dysfunction and uncontrolled proliferation. My lab uses a wide range of techniques including live fluorescence microscopy, FRAP, flow-cytometry, quantitative mass-spectrometry and 'classical' biochemistry. Model systems include tissue culture, mouse models and the roundworm *Caenorhabditis elegans*.

Work experience:

- As of 2008 Assistant Professor (permanent position) at Molecular Cancer Research (formerly dept. of Physiological Chemistry), University Medical Center, Utrecht, The Netherlands.

Research topic:
-Redox Signaling in Cancer Biology.
- 2005-2008 Post-Doc in the lab of Prof. Dr. Boudewijn Burgering, Department of Physiological Chemistry, UMC Utrecht.

Research Topics:
-Redox control of FOXO transcription factors
-Interplay between c-Myc and PI3K signaling in the control of cell cycle and apoptosis.
- 2002-2005 Visiting Post-Doc (EMBO Long-term fellowship) in the lab of Prof. Dr. Gerard Evan at the Cancer Research Institute, University of California at San Francisco, USA.

Research Topics:
-Exploring the Warburg effect as a target for cancer treatment in glioblastoma multiforme
-Molecular mechanisms of c-Myc induced cancer and apoptosis in advanced mouse models.

1997-2001 Ph.D. student in the lab of Prof. Dr. Karel Wirtz, Biochemistry of Lipids, Faculty of Chemistry, UU. Graduated (cum laude). Thesis: "The role of peroxisomes in oxidative stress" ([available online](#))

Pre-doctoral education:

1997 Graduated in Chemistry (Drs/M.Sc) with majors in Biochemistry and Cell Biology.
 1992 Started studying Chemistry at Utrecht University (UU), The Netherlands.
 1986-1992 VWO, Nederrijn College (High school) Arnhem. Subjects: Physics, Chemistry, Maths (Wiskunde B), Statistics (Wiskunde A), Biology, English, German and Dutch.

Certificates:

2015 Biomedical Sciences seminar 'Using Rubrics'
 2015 Graduate School of Life Sciences Education Seminar '21st century skills in life sciences'
 2012 UMC Utrecht Academy 'Activating forms of education'
 2012 Utrecht University Center of Excellence in University Teaching 'Teaching in the international classroom'
 2014 UMC Utrecht Academy 'Situational leadership & influence skills'
 2009 EMBO Laboratory Management course and certificate
 2006 Radiation safety level 4B
 2005 "Artikel 9" (animal experiments) Veterinary Medicine, Utrecht University.
 2004 Basic Regulatory and Ethical Requirement level II for Animal experiments, University of California, San Francisco.
 2002 Basic Regulatory and Ethical Requirement level I for Animal experiments, University of California, San Francisco.

Grants & Awards

2016 Dutch Cancer Society (KWF) Research Grant (with Onno Kranenburg as main applicant)
 2014 Dutch Cancer Society (KWF) Personal Grant
 2011 Netherlands Organisation for Scientific Research (NWO) ECHO grant
 2011 Award for best Utrecht Graduate School of Life Sciences MSc course
 2009 Dutch Cancer Society (KWF) Research grant
 2007 Dutch Digestive Disorders Foundation research grant (Maag-Lever-Darm stichting)
 2004 UCSF Liver Center Pilot and Feasibility Fund (with Gerard Evan)
 2002 EMBO Long-term Fellowship
 2000 Institute of Biomembranes (UU) Publication Prize.

Selected Lectures & Seminars

2015 Oxygen Club of California World congress, Valencia, Spain June 2015 (Invited speaker)
 2015 Society for Free Radical Research Meeting "Redox Biology meets nutrition", Heidelberg, Germany, September 2015 (Invited speaker)
 2015 National Key Laboratory of Biotherapy, West China Hospital, Sichuan University, Chengdu, China (Invited Seminar/lab visit)
 2014 Gordon Research Conference "Thiol-based redox signaling", Girona, Spain (Selected short talk)
 2014 Klinikum Rechts der Isar, Technische Universität München, Munich, Germany (Invited Seminar)
 2014 Biochemical Society Conference "Redox Regulation in Health and Disease" (Selected short talk)

- 2013 Oslo University Hospital, Oslo, Norway (Invited Seminar)
2012 Technische Universität München, Munich, Germany (Invited Seminar)
2012 National Institute on Aging, Baltimore, MD, USA (Invited Seminar)
2011 MRC Laboratory of Molecular Biology, Cambridge, UK (Invited Seminar)
2011 Helsinki Biomedical Graduate School Symposium, Helsinki, Finland (Invited speaker)
2009 Biozentrum, University of Wuerzburg, Germany (Invited Seminar)
2009 Meeting on Signal Transduction & Disease, Aachen, Germany (Selected short talk)
2006 EMBO Workshop on Redox Signaling, Rome, Italy (Invited Speaker)
2002 Oncogene Meeting, La Jolla, CA USA (Invited Speaker)
2000 International Conference on Histochemistry and Cytochemistry, York, Great Britain (Invited Speaker).

Current Teaching

1st years biomedical sciences (BMW). Deelcoordinator ‘Eiwitten & Enzymen’, blok Moleculen
3rd year biomedical sciences (BMW), ‘Moleculaire Mechanismen van Kanker’
- develop, organize and teach the annual MSc/PhD course “Digital Images: data integrity & display”. This course received the Utrecht Graduate School of Life Sciences award for best MSc course of the year in 2011.
-develop, organize and teach the annual MSc/PhD course “Molecular Mechanism in Cancer”, together with Boudewijn Burgering.
-Conceived the educational game “Divide & Conquer” for the Utrecht Summerschool on Molecular Mechanisms of Cancer.

Supervision

-Supervised 2 Ph.D. students to finish their degree (dr. Marrit Putker, dr. Marieke Visscher)
-Currently daily supervisor (“co-promotor”) of 2 Ph.D. students and a postdoc.
-member of the Graduate Student Committee (AiO commissie) of several PhD students in the labs of Jeroen den Hertog, Susanne Lens, Boudewijn Burgering.
-Supervised several technicians, M.Sc. and B.Sc students since my Ph.D.

Committees

Member of the NWO Chemical Sciences study section ‘Proteins’
Associate member of the Faculty of 1000 Cell Biology section.

Other activities

Free-lance nature photographer for the Buiten-beeld image stock bureau.
