

How to draw...

Peanut Jones

1 Start by drawing a nice, big oval towards the bottom of your piece of paper.

2 Add two medium-sized circles in the bottom half of the oval.

3 Next, draw two small circles in the middle of the medium-sized ones. Add five small lines to the outside edges as shown.

4 Let's give Peanut a nose. Draw a backwards C shape between the eyes and add a small vertical line at the top

5 It's time to add eyebrows and a mouth. Two tilted lines above the eyes and one below the nose will do the trick.

6 Draw a small semicircle on each side of the head. Add a swirl inside each one as shown. Voila! Ears!

7 Draw a zig-zaggy line inside the upper curve of the head for her hairline. Then add two thick lines right in the centre of the top of her head.

8 Now for the really fun part: take several orange, red and yellow pencils or pens, and start scribbling! Her top-knot is meant to be messy, so go crazy!

9 Finally, it's time to colour in the rest. Don't forget to add plenty of freckles on her cheeks and across her forehead. That's it! You have drawn Peanut Jones!
