What the Ladybird Heard

at CHRISTMAS

Ask an adult for help with the scissors!

Make your very own ladybird Christmas decoration!

You will need:

- A sheet of card
- Scissors and something sharp to poke a hole!
- Something to colour in with
- Glue
- String

1. Cut out the wings and body below by following the dotted lines and stick them onto some card - then cut both shapes out of the card.
2. Colour both sides of the ladybird's body in black and her wings in red. Don't forget to add black spots to her wings!
3. Ask an adult to help make the hole on the ladybird's back to add your string through later.
4. Fold the wings! First, fold along the red line so the wings are folded in half.
5. Then fold along both yellow lines to open the wings out in the opposite direction.
6. Add some glue to the inside of the ladybird's wings along the red line fold.
7. Position the ladybird's head between the wings before pinching both of the sticky sides together.
8. And finally, thread your string through the hole and you've made your ladybird decoration!
