

HOW TO DRAW

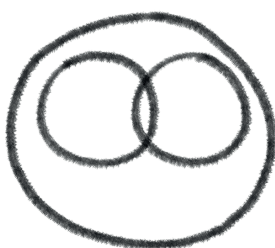

★ DANTE'N-FERNO

WITH BRIAN GORDON

1. Start with a circle!

2. Now add two smaller circles that overlap just a little.

3. Add a mouth, eyebrows and two small circles for pupils.

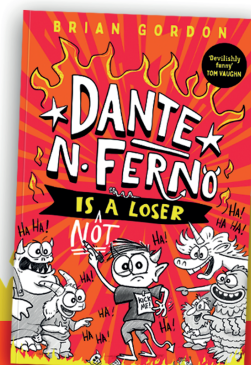

4. Add two triangles on top of Dante's head for horns. Then add two ears on the side of his head. These are shaped a bit like fish fins!

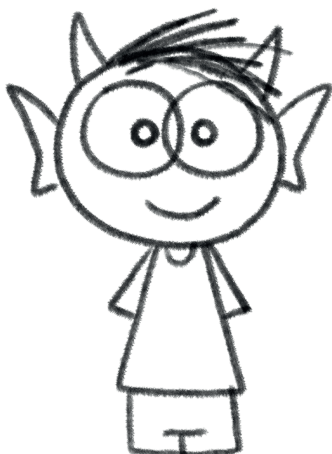

5. Now add some hair in between his horns.

6. Underneath his head, draw a triangle shape (without the top) for Dante's shirt. Add a semicircle for the collar. Draw two smaller triangles each side for his arms.

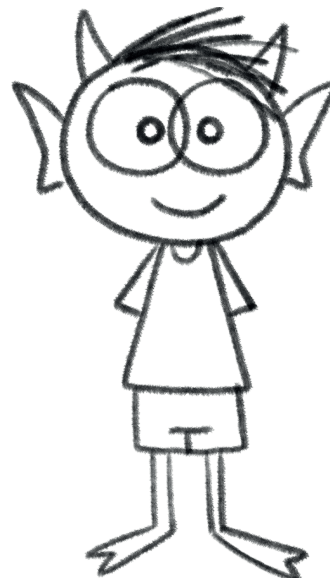

7. Draw a rectangle underneath Dante's shirt and add a capital T at the bottom to draw his shorts.

8. Draw two pairs of lines coming from his shorts for his legs.

9. Add a foot at the end of each leg. Dante has just two pointy toes on each foot. They're kind of like flippers.

10. Add two lines for each arm. Pose them whatever way you want!

11. Add some hands. Remember, Dante only has four fingers on each hand (less to draw!)

12. Now for his tail! Squiggle a line coming from behind Dante and add a triangle at the end. It's time to colour him in!
